Management Structure

The management structure for an organization describes the different levels of responsibility, and how decisions are put into practice. This structure can be represented by an organization chart. An organization chart shows the chain of command- the way in which decisions are passed up or down the organization, from one level to the next- and the span of control- the number of employees for whom a person at a higher level has direct responsibility. A tall organization is one in which there is a long chain of command. Different levels of the organization are known as hierarchy. A flat organization has a short chain of command.
